

Letko, Brosseau & Associates Inc.

Information Technology Equity Analyst

Letko, Brosseau & Associates is an investment manager with offices in Montreal, Toronto and Calgary. The firm manages assets on behalf of clients that include individuals, pension plans and charitable foundations. Most of our mandates are diversified and entail the management of both Canadian and global equities, as well as fixed income securities. We are fundamental, value-oriented investors with a strong emphasis on in-house research. Founded in 1987, the firm has enjoyed strong growth as a result of excellent investment performance, attentive client service and high standards of business ethics.

We are currently looking for an equity analyst to cover the information technology industry. The successful candidate will be responsible for developing an in-depth knowledge of companies operating in this sector and identifying interesting investment opportunities. Analysts make forecasts and produce valuation models resulting in substantial portfolio investments. The work includes regularly meeting with the management of publicly traded companies and visiting their operations.

Candidates should ideally have a degree in **electrical engineering or computer science**. Relevant work experience in the IT industry would be an asset. In addition, candidates should have master's degree in finance, economics or business. Self-motivation and the ability to work independently are required. This position will appeal to individuals who are thoughtful, creative, have strong analytical skills and a keen interest in capital markets.

Interested candidates should forward a covering letter, resumé and academic transcripts (undergraduate and graduate) to Allan Cyril (allan.cyril@lba.ca) or Stephane Lebrun (stephane.lebrun@lba.ca).
