Letko, Brosseau & Associates Inc.

Web Developer – Full stack

Letko, Brosseau & Associates is one of Canada's leading independent investment management firms, serving both institutional and high net worth clients. The firm's approach is based on fundamental analysis, broad diversification, an international perspective, careful security selection and low turnover. This approach has generated solid long-term results for clients since the firm's foundation in 1987. Outstanding financial performance, superior customer service and high standards of business ethics are the firm's guiding principles that contributed to its success over the years.

The firm wishes to recruit a Full Stack Web developer who will participate in the development of the new customer portal platform. The web developer will use the latest technologies (.NET Core and Web). You will work with the team to create the database and the platform (front-end, back-end) components. You will also have the opportunity to work on our other Fintech initiatives.

- Conceptualize, implement and develop various internal projects and new functionalities;
- Participate in all stages of development of internal projects knowing how to provide expertise in C# .NET, Javascript and Vue.js.
- Collaborate in the development of multiple tests (unit, systems and functional) as part of the project development;
- Contribute to the databases development (SQL, Oracle PL / SQL);
- Collaborate efficiently with the team to ensure the smooth running of the various projects stages;
- Perform maintenance of different application.

Required profile:

- Bachelor's degree in software engineering, computer science or a related discipline;
- Minimum of 2 years of experience as a developer;
- Strong knowledge of object oriented programming languages (.NET C #);
- Excellent analytical skills;
- Autonomy and leadership;
- Experience in back-end web development (C#, ASP.Net Core, Razor Pages, REST Services, Entity Framework Core);
- Front-end development experience (HTML5, CSS, Javascript, Vue.js, Bootstrap, jQuery, SASS);
- Experience in database development (SQL, Oracle PL / SQL);
- Experience with Visual Studio, Azure DevOps and Git;
- Excellent understanding of the software development cycle
- Excellent communication skills (written and spoken) in English and French;
- Experience in Web security and authentication (asset);
- Experience with the Oracle database (asset);
- Experience with a CMS (asset);
